(c) 2024 YAMLForms Project

This document is provided as-is for reference purposes.

Public distribution permitted.

# 1. Content Elements

## 1.1 Headings

Headings support levels 1 through 6, similar to HTML h1-h6 tags.

### Level 3 Heading Example

### Level 4 Heading Example

## 1.2 Paragraphs

Paragraphs display body text. They support optional maxWidth and fontSize properties for fine-tuned control over text presentation.

This paragraph has a custom maximum width of 400 points and a larger font size of 14 points.

## 1.3 Rules

Rules create horizontal dividing lines between content sections.

---

## 1.4 Spacers

Spacers add vertical whitespace. Height is specified in points.

(24 points of space was added above this paragraph)

## 1.5 Admonitions

Admonitions are callout boxes for important information. Five variants are available.

**Note: Note**

Use notes for supplementary information that adds context.

**Info: Information**

Info boxes highlight general helpful information.

**Tip: Tip**

Tips provide helpful suggestions and best practices.

**Warning: Warning**

Warnings alert users to potential issues or important considerations.

**Danger: Danger**

Danger boxes indicate critical warnings that require immediate attention.

## 2. Form Fields

### 2.1 Text Fields

Single-line text input fields with optional placeholder and validation.

1. Full Name

2. Email Address

3. Phone Number

### 2.2 Textarea Fields

Multi-line text areas for longer content like descriptions or comments.

#### 4. Additional Comments

## 2.3 Checkbox Fields

Boolean checkbox fields for yes/no selections.

5. I agree to the terms and conditions

6. Subscribe to newsletter

## 2.4 Dropdown Fields

Dropdown select fields with predefined options.

7. Preferred Contact Method

8. Country

## 3. Tables

### 3.1 Basic Table with Manual Rows

Tables can contain form fields in cells. Define columns and rows explicitly.

## 9. Contact Information

Name	Email	Phone	Primary

## 3.2 Auto-Generated Table Rows

Use rowCount with fieldPrefix and fieldSuffix for automatic row generation.

## 10. Line Items

Description	Quantity	Unit Price	Taxable

## 3.3 Table with Dropdown Options

## 11. Team Assignments

Team Member	Role	Status

## 3.4 Table with Static Labels

## 12. Product Specifications

Specification	Value
Model Number	Priority Level
Serial Number	Low Priority
Warranty Status	Medium Priority

High Priority

Urgent
